### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sharon E. Crane on November 13, 2006.

The application has been amended as follows:

Cancel claims 61, 63 and 64.

### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

After exploring the issue of interference estoppel it has been determined that applicant could not have proposed another count in the interference as proposed by Examiner. Since the senior party was a patent, they could not amend their case to include support for any newly added count, nor could they have filed a reissue application to be placed into the interference since it had been two years, which is the time limit for filing a broadening reissue application. Thus, patentability hinges on two

issues. First, the sufficiency of the showing that Singh had reduced the generic invention of the present claims to practice prior to Brake. The CAFC was convinced that the showing was sufficient and Examiner is convinced as well.

The second issue is whether the showing is commensurate with the scope of the instant claims. The showing demonstrates the expression of human interferon under the control of the claimed expression system. Since one of ordinary skill in the art would expect any coding sequence to be expressed once one is demonstrated, the showing is deemed to be commensurate in scope with the claims.

Thus, the claims are considered to have utility, be novel, unobvious and enabled and, therefore, patentable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert A. Wax whose telephone number is (571) 272-0623. The examiner can normally be reached on Monday through Friday from 9:00 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Kathleen Kerr can be reached on (571) 272-0931. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
